Editorial Policy

This is the first Corporate Social Responsibility Report of DAIICHI SANKYO COMPANY, LIMITED, since completing full integration in April 2007. The report outlines DAIICHI SANKYO Group's social and environmental activities in fiscal 2006, ended March 31, 2007. It also presents new the Group's new Corporate Social Responsibility (CSR) concepts. The report features:

- Layperson's language where possible to enhance understanding among general readers.
- Messages from divisional heads to convey their respective missions and stances.
- Corporate social responsibility information and activities reporting and environmental reporting. We segmented social reports by stakeholder.

Report Scope

- Business Scope
Main domestic and overseas Group companies, which we present on page 46.
- Data Scope
We have drawn as much as possible on data from DAIICHI SANKYO and predecessors Sankyo and Daiichi Pharmaceutical.
We sourced environmental performance data from Sankyo's research and development and production sites, Daiichi Pharmaceuticals' R&D facilities, and the manufacturing sites of Daiichi Pharmatech Co., Ltd. The report notes where data is from other sources.
- Period Covered
April 1, 2006, to March 31, 2007 (with some information after April 2007).

Relationship with Other Reports

- This publication covers social and environmental reports. To disclose financial information, DAIICHI SANKYO produces a shareholder report, business report, and annual report, and maintains an investor relations website.

Publication Dates

- Japanese version of this report: November 2007
- Next report: September 2008

Guideline References:

- Global Reporting Initiatives: Sustainability Reporting Guidelines 2002
- Japan's Ministry of the Environment: Environmental Reporting Guidelines (2003 edition)

Cautionary Note

Readers should note that this report presents facts and forward-looking statements based on judgments derived from information available at the time of publication and that such information includes uncertainties.

Our Mission

Enriching the quality of life around the world
through innovative pharmaceuticals

Corporate Slogan and Statement

Creating hope in patients' lives

We are a global leader in pharmaceutical innovation, dedicated to improving health and adding to the balance of life for patients worldwide.

By continuing to improve our research and development processes, we strive to discover and develop new therapies that address unmet medical needs.

We take our responsibility to our patients seriously, and we are committed to being a trusted partner in helping patients focus on improving their health so they can better balance their lives.

At DAIICHI SANKYO, we do more than develop pharmaceuticals;
we create hope in patients' lives.
