1. Matters Related to Defense against Takeovers

Adoption of Anti-Takeover Measures	Not Adopted
------------------------------------	-------------

Supplementary Explanation

The Company believes that it is the shareholders to decide whether or not to respond to any moves toward large-scale acquisition of Company stock. The Company does not deny the potentially significant impact that transfers of management control may have in terms of stimulating business enterprise. In line with this thinking, the Company has not prepared any specific takeover defenses.

Nonetheless, the Company would consider it a self-evident duty of the Company management to oppose any takeover plans whose aims were generally considered inappropriate (such as schemes to ramp up the share price) or that would otherwise be deemed detrimental to the value of the Company or the mutual interests of shareholders. Accordingly, the Company will continue monitoring closely share transactions and changes in shareholders. In the event any moves toward large-scale acquisition of Company stock are noticed, the Company would evaluate any takeover proposal with outside experts and determine carefully the impact of such on the value of the Company and the mutual interests of shareholders. If any proposal were deemed detrimental to such interests, the Company would institute appropriate anti-takeover measures in response to individual cases.

Through this policy, the Company strives to earn trust as a company that is highly transparent and open to the society.

The information for financial statements, etc. (including quarterly financial statements) is referred to the Board of Directors by the Finance and Accounting department. Upon resolution by the Board of Directors, the Corporate Communications Department works jointly and in consultation with the related departments to compile a disclosure proposal. The disclosure is then made upon approval by the President and CEO.

2) Information other than financial information

Information other than financial information includes those relating to matters to be decided that are reported or referred for resolution to the Board of Directors from the relevant departments and resolved at a meeting of the Board of Directors, and those related to matters occurred that are reported to the President and CEO and Corporate Communications Department from the relevant departments. Based on such resolutions or reports, the Corporate Communications Department works jointly and in consultation with the related departments to compile a disclosure proposal.
