The Daiichi Sankyo Group regards social contribution activities as part of its CSR initiatives, and it is stated clearly in the Group's Corporate Conduct Charter that the Group actively engages in community activities and philanthropic programs focused on social causes.

We formulated Basic Policies on Group Social Contribution Activities to promote initiatives that contribute to the development of science and research (medical and pharmaceutical), social welfare and other initiatives related to human life and the will to live, as well as initiatives related to life and nature, such as environmental conservation.

We have been implementing a number of projects to “broaden the opportunity of access to medical services, including medicine, globally,” which is one of the five CSR goals in the Group's Second Mid-term Business Management Plan for fiscal 2010 – 2012.

DAIICHI SANKYO Group Corporate Conduct Charter

The DAIICHI SANKYO Group fulfills its mission to “To contribute to the enrichment of quality of life around the world through the creation of innovative pharmaceuticals, and through the provision of pharmaceuticals addressing diverse medical needs.” We comply with laws, regulations and rules regarding global corporate activities, and act with the highest ethical standards and a good social conscience appropriate for a company engaged in a business that affects human lives based on the following principles.

We fulfill our corporate social responsibility (CSR) by actively responding to an ever-changing society and enacting improvements for corporate value.

**Article 1**
We diligently address medical needs by providing beneficial, safe, and reliable pharmaceuticals and services.

**Article 2**
We conduct business in an ethical, fair and competitive manner, and maintain a healthy and professional relationship with our stakeholders, which include medical professionals and governments.

**Article 3**
We actively communicate with our stakeholders by disclosing corporate information in a timely and appropriate manner in accordance with the principles of corporate accountability. We take appropriate measures to manage and protect personal and customer information and the confidential information of our and other companies.

**Article 4**
The globalization of business activities requires that we operate by being compliant with the laws of each country and region, and by being respectful to all international norms including human rights, various cultures and customs. As a result, we contribute to the development of the local economy and society.

**Article 5**
We respect diversity in the personal values, qualities and individuality of our employees, and ensure a safe and working environment that does not tolerate inappropriate treatment such as discrimination or harassment. We provide employees the opportunity to develop their skills and abilities for the mutual development of the employee and the corporation.

**Article 6**
We responsibly manage the environmental impact of our operations as environmental issues are common challenges for mankind and such concerns are integral to our corporate activities and our very survival.

**Article 7**
We actively engage in community activities and philanthropic programs focused on social causes.

**Article 8**
We do not support or conduct our business with antisocial forces, prohibited entities or groups that may threaten the order or safety of civil society.

**Article 9**
Executives of the DAIICHI SANKYO Group actively build and maintain effective systems to implement this Charter, ensure it is understood by all Group companies and make this Charter known to our business partners.

**Article 10**
If the Charter is violated, executives of DAIICHI SANKYO Group Companies ensure that there is a commitment to determine the cause of infringement, take corrective action as necessary and make efforts to prevent similar violations in the future. Executives are accountable for promptly making required disclosures and upon discerning responsibility regarding the infringement, impose appropriate disciplinary action, including upon Executives themselves.

Revised April 1, 2012
Basic Policies on Group Social Contribution Activities

We publish the Social Contribution Activities Report to introduce to various parties the internal and external social contribution activities of the Daiichi Sankyo Group. The activities introduced in this report are based on Group Social Contribution Activity Policies. We present these activities by basic policy area. The aim of this publication is as follows:

- To facilitate internal awareness of global employee volunteer activities throughout the company.
- To increase opportunities for feedback and opinions from readers outside the company through an understanding of the activities we are engaged in.
- We will help create a sustainable society, engaging in activities to contribute to society.
- We will particularly prioritize progress in medicine and pharmacology, social welfare and environmental conservation.
- We will assist with disaster restoration, youth education, and promote culture and the arts.
- We will foster healthy social development by participating in and supporting voluntary activities.
- We will engage with and prosper with communities.

Enriching the Quality of Life around the World through Mobile Healthcare Vans

Daiichi Sankyo Joins Efforts to Support the UN Millennium Development Goals

The Millennium Development Goals (MDGs) are a common framework created by integrating the UN Millennium Declaration adopted at the UN Millennium Summit held in September 2000 and international development goals adopted at major international conferences and summit meetings held during the 1990s. The MDGs are comprised of eight goals to be achieved by 2015.

Daiichi Sankyo has a Mid-term CSR Policy and has set five specific goals in its Second Mid-term Business Management Plan. One of the larger goals is to broaden the opportunity of access to medical services, including medicine, globally. From among the Millennium Development Goals listed above, we have chosen to focus our social contribution programs on the three healthcare-related objectives: Reduce child mortality (MDG 4); Improve maternal health (MDG 5); and Combat HIV/AIDS, malaria and other diseases (MDG 6).

Providing Medical Field Clinics through Mobile Healthcare Vans

Improving access to medical services is essential to achieving the MDGs. However, medical facilities tend to be concentrated in urban regions, so access to medical care is a major problem in countries where roads and railways are not well developed. In places like these, a mobile health clinic in a van can be a real blessing. It is easy to see how mobile healthcare field clinics can offer great potential for the future.

A mobile healthcare van has medical equipment and various supplies for basic medical care. Making the most of their mobility, these vans can provide greater access to medical and primary healthcare and save many lives in areas that are far from regular healthcare facilities.

Daiichi Sankyo examined the progress on the MDGs in the areas where the company carries out its business operations and identified Africa and India as areas in which Daiichi Sankyo should play a role. The company has implemented initiatives to provide field healthcare services in these areas through the use of mobile healthcare vans.

*1. With the aim of reducing social disparities in attaining and maintaining good health, a fundamental human right, primary healthcare is about proactively offering a range of healthcare services, including preventative care and health promotion services.
Daichi Sankyo examined the situations of specific countries in Africa to identify those where progress on the MDGs was lagging and decided to focus its efforts on Cameroon and Tanzania, where its group company Ranbaxy has business operations. The company will work in cooperation with international NGO Plan to implement its initiatives there. We have been developing our activities in Bertoua in the East Region of Cameroon and in Kisarawe in the Coast Region of Tanzania.

**Goals and Services in Africa**

In 2011, Daiichi Sankyo and Ranbaxy rolled out a joint CSR initiative for the Dewas district in Madhya Pradesh. Three entities cooperate in this initiative, with Daiichi Sankyo taking the overall lead, Ranbaxy coordinating with the government and hospitals and providing support, and RCHS executing and managing the activities. Two mobile healthcare vans have been introduced in the Dewas district to enhance the medical services being provided in this area.

### Goals and Services in India

**Goals**
- Goal 4: Reduce child mortality
- Goal 5: Improve maternal health
- Goal 6: Combat HIV/AIDS, malaria and other diseases

**Performance Indicators**
- Infant Mortality Rate (IMR)
- Maternal Mortality Ratio (MMR)

**Targets (2011–2016)**
- To reduce IMR by 50%
- To reduce MMR by 50%

**Services**
- Mobile healthcare field clinics
- Basic medical services, vaccinations, pre-natal checkups
- Provision of medical information, raising awareness

### Cameroon
- One mobile healthcare van

### Tanzania
- One mobile healthcare van

### Other Achievements

**Cameroon**
- Purchase of mobile healthcare van
- Training for district officials in mobile healthcare field clinic operations
- Support for Mother and Child-Health Nutrition Action Week initiated by the Ministry of Public Health, Cameroon

**Tanzania**
- Purchase of mobile healthcare van
- Training for district officials in mobile healthcare field clinic and mobile healthcare van operations
- Provision of 42 weight scales and 20 vaccine carriers
- The first Health Day in the village

---

*2. Ranbaxy Community Health Care Society: In 1979, Ranbaxy set up the non-profit organization, Ranbaxy Rural Development Trust. As the program grew, the Trust was re-christened as Ranbaxy Community Health Care Society (RCHS), an independent body created in 1994. The initiative is focused on mobile healthcare treatment based on an integrated approach of curative, preventive and health promotion services covering the areas of maternal health, family planning, adolescent health, and health education, including HIV/AIDS awareness.

*3. Accredited Social Health Activist: ASHA means “Hope” in Hindi. ASHA are the official social healthcare activists who reside in the doctorless village areas in India and contribute to the improvement of medical treatment and health.
Daiichi Sankyo Group Social Contribution Activities (Fiscal 2011)

The Daiichi Sankyo Group is involved in a range of social contribution activities around the world, contributing to the creation of a sustainable society.

\(^1\) Abbreviation of Asia, South and Central America. This is internal terminology indicating markets outside Japan, the United States and Europe.
As a healthcare company concerned with life and wellbeing, we contribute to progress in medicine and pharmacology so that people may live every day in good health.

### Daiichi Sankyo Co., Ltd.

**Research Grants**

We provide grants to universities and other research institutions for research, mainly into infectious diseases, hypertension and fat metabolism.

**Supporting Foundations**

We support the Daiichi-Sankyo Foundation of Life Science, the Japan Research Foundation for Clinical Pharmacology and the Manpei Suzuki Diabetes Foundation, organizations that provide research grants in medical and pharmaceutical science.

**Making Donations**

We donate funds to the Dr. Takamine Jokichi Memorial Foundation, which was founded to honor the achievements of Dr. Takamine and to promote science education.

### Daiichi Sankyo, Inc.

**Making Donations**

We provide donations to patient and healthcare non-profit organizations (NPOs) in the USA to promote the development of scientific knowledge and improve treatment for patients.

### Luitpold Pharmaceuticals, Inc.

**Making Donations**

We provide research grants and donations to a variety of medical and pharmacological institutions, including the following institutions in the United States: The National Kidney Foundation, The Cancer Institute of New Jersey, St. Jude’s Research Hospital, South Nassau Community Hospital, the Renal Physicians Association, the Society for the Advancement of Blood Management (SABM) and the American Nephrology Nurses’ Association (ANNA)

### Daiichi Sankyo Deutschland GmbH

**Making Donations**

We support research into cardiovascular disease.
### Daiichi Sankyo Italia S.p.A.

**Making Donations**

We provide donations to the Associazione Cardiopatici Versilia, a cardiovascular disease patients’ association, and the Italian Association for Cancer Research (AIRC), an association committed to fostering cancer research in Italy and raising funds and providing grants for cancer research, along with keeping the public up to date on the latest news in this field.

### Daiichi Sankyo España, S.A.

**Donations and Research Grants**

We support the Spanish Society of Cardiology (SEC) by sponsoring two grants, one for research into cardiology and the other for hypertension, as well as a project on the treatment of acute coronary syndrome. We also collaborate with the institution in promoting research and awareness activities.

### Daiichi Sankyo Pharmaceutical (Beijing) Co., Ltd.

**Scholarships and Fellowships**

We provide scholarships and fellowships to Fudan University, Shanghai through the Daiichi Sankyo Pharmaceutical (Beijing) Oriental Scholarship Program* at Fudan University.

### Ranbaxy Laboratories Limited

**Activities Undertaken by Ranbaxy Science Foundation**

Ranbaxy Science Foundation, a non-profit registered society dedicated to the promotion of scientific endeavors in India, offers the Ranbaxy Research Awards and the Ranbaxy Science Scholar Awards to discover talent in the fields of medical, pharmaceutical and other sciences. The Foundation also invites one outstanding research scientist from abroad every year to work with Indian scientists with an aim of elevating the capabilities of Indian scientists and widening their knowledge base.

The Foundation also organizes an annual symposium focusing on topics such as care of the elderly and round-table conferences covering healthcare issues such as malignant tumors and chronic kidney disease. The proceedings of these symposia and conferences are published in the form of a book series entitled “Service to Medicine,” and are distributed to colleges, universities and public health administrators.

---

*The Oriental Scholarship Program is intended to help fund research by master’s degree students, doctoral candidates, and professors in medicine and pharmacology. “Fellowships” refers to research support for professors.
Social Welfare

As articulated in one of our CSR Goals, “broaden the opportunity of access to medical services, including medicine, globally,” we are tackling issues of medical access in a variety of ways. As part of initiatives to contribute to the Millennium Development Goals (MDGs), we implement medical field clinics using mobile healthcare vans in India, Cameroon and Tanzania.

Daiichi Sankyo Co., Ltd.

Medical Field Clinics through Mobile Healthcare Vans in India, Cameroon and Tanzania

As part of our efforts to contribute to the “broadening of opportunity of access to medical services, including medicine, globally,” which is one of the five CSR goals the Group has laid out in its Second Mid-term Business Management Plan, we launched new social contribution activities to help support the achievement of the Millennium Development Goals. Our efforts specifically focus on three goals in the field of medicine: reducing infant mortality rates, improving maternal health and combating AIDS, malaria and other diseases. To help achieve these goals, we have implemented medical field clinics using mobile healthcare vans in India, Cameroon and Tanzania.

Supporting Cancer Patients and Their Families

● The Rainbow Campaign

The Rainbow Campaign is a Daiichi Sankyo program set up in collaboration with the non-profit organization, Cancer Support Community Japan, to offer support to cancer patients, their families and friends, along with medical staff and all others whose lives are touched by cancer.

In October of fiscal 2011, as part of this program, we sponsored the Patient Active Forum, which is organized by Cancer Support Community Japan. Seventeen Daiichi Sankyo Group employees also volunteered as staff.

● Daiichi Sankyo Presents Family Ties Theater 2011

Cancer patients and their families were invited to a show called “Daiichi Sankyo Presents Family Ties Theater 2011” in June. This event, which uses the form of a musical to convey emotion and strength, was carried out with the support of the Shiki Theatre Company and Cancer Support Community Japan, which shared Daiichi Sankyo’s aims and hopes for this event. We invited 240 people to see the musical, Mamma Mia! Thirty Daiichi Sankyo Group employees also volunteered as staff.

Introducing Recipes to Prevent Lifestyle Diseases

Eating properly is the cornerstone to preventing lifestyle diseases. Videos of our “e-healthy recipes” can be seen on our website featuring original recipes, which help prevent lifestyle diseases.
Cosponsorship of Public Seminars
We believe that providing patients with accurate knowledge is an essential part of the proper treatment of diseases, so we have cosponsored a number of public seminars on topics such as the prevention of lifestyle diseases.

Making Donations
We donate to the Japan Oral School for the Deaf and other organizations.

Making Donations through Food
At the cafeteria in the company headquarters, we offer a “social contribution” menu that allows people to contribute to the “enrichment of the quality of life around the world.” By selecting these low-calorie meals, people can support the non-profit organization, TABLE FOR TWO International, which provides free school lunches for children in developing countries to help alleviate food shortages.

We also support the award-winning Pharmacy Services Education Program, which provides Zufall Health Center patients with access to a registered pharmacist for education, medication monitoring and coordination of prescriptions. In fiscal 2011, the program provided this service to 2,000 people.</td>
</tr>
</tbody>
</table>
Support for the Lung Cancer Screening Program

We provide support to the lung cancer screening program at the Morristown Memorial Hospital Foundation. The program is in its first year and screened 200 patients in the first three months.

Providing Medicines

We provide free medicines to qualified patients who are uninsured or underinsured and are thus unable to pay for them. In 2011, 34,000 patients across the nation benefited from this service.

Supporting Job Training for People with Special Needs

We engaged Employment Horizons fulfillment services, a non-profit agency in New Jersey that offers training and job opportunities for individuals with special needs so they can establish self-sufficiency.

Helping Underprivileged Families

We make monetary and food donations to the Interfaith Food Pantry (food bank). We also provided 97 backpacks and school supplies for school-aged children through “Project Pencils,” an endeavor organized by Coordinated Family Care, a care management organization. In addition to this, we provide holiday gifts for underprivileged children through the Salvation Army.

Luitpold Pharmaceuticals, Inc.

Providing Medical Supplies

We supplied Venofer, an iron sucrose injection, free of charge to more than 300 individuals who are living in poverty or who are uninsured.

Supporting Children’s Dental Treatment

We make donations to the Smile Train, a charity that supports dental treatment for children.

Donations to the Food Bank

We have been making donations of food items and money to food banks*1 on Long Island—Long Island Cares and Island Harvest.

Daiichi Sankyo France S.A.S.

Supporting Cardiac Surgery for Children

We support Mécénat Chirurgie Cardiaque, an organization that invites children with congenital heart defects from all over the world to France and provides assistance for cardiac surgery.

Supporting a Charity Organization

We support Les Amis de Brazzaville, a charity organization that supports orphanages and helps volunteers who care for terminally ill patients.

Supporting Breast Cancer Research

Thirty staff members took part in a fundraising run, La Parisienne. This is a run for women in support of the eradication of breast cancer. All proceeds from this event go towards breast cancer research.

*1 Organizations that distribute food to those in need through churches, support groups for the disabled and other charities.
### Social Welfare

#### Daiichi Sankyo Hong Kong Limited
**Supporting Local Social Welfare Groups**
Staff make donations that are then matched by the company to such organizations as the NPO Heifer International, which distributes livestock to farmers in impoverished regions of China to help make people’s lives more sustainable, the Salvation Army, Médecins Sans Frontières, and the HK Community Chest, which raises money to distribute to needy organizations and individuals.

**Donating a Bench to the Red Cross**
We donated a bench for the waiting room when the headquarters of the Hong Kong Red Cross was rebuilt.

#### Daiichi Sankyo Brasil Farmacêutica Ltda.
**Supporting Patients with Heart Disease**
We provide donations to the Associação Amigos do Coração (Heart Friends Association), a group in Sao Paulo based at one of Brazil’s most prominent hospitals for heart disease, to improve conditions at Hospital InCor (Heart Institute).

**Supporting Heart Disease Group**
Our staff members volunteer with the heart disease group Associação Amigos do Coração. They visit patients and help raise their spirits through events on festive occasions such as Christmas, as well as giving gifts of clothing and donating books to the library. The staff members also give the children gifts at Easter and gather donations of toys to make gift kits.

**Santa Claus of the Post Office**
At Christmas, children in Brazil send letters to Santa Claus, and the post office gathers their letters and sends them to citizens who deliver presents to the children. Daiichi Sankyo Brasil Farmacêutica Ltda. helps with this project, sending 50 letters to staff who had offered their help.
Daiichi Sankyo Venezuela S.A.

**Publication of Heart Disease-Themed Picture Books**

Working with non-profit organizations that operate under the auspices of the Venezuelan Heart Foundation, we publish a picture book that deals with themes related to heart disease, and we distribute them free of charge to children, parents, young people, teachers and doctors.

**Supporting Local Social Welfare Groups**

We sponsor the creation of calendars by groups engaged in providing local social services and contribute to Day Operation Smile Venezuela, which supports reconstructive surgery for children with cleft lip and palate. We also support visits of clowns to children’s hospitals to raise the spirits of patients and their families.

**Supporting Medical Equipment and Medicines**

We provide medical equipment, electronics, fire-extinguishing systems and funding for various hospitals, health-related facilities and public institutions in Venezuela.

Ranbaxy Laboratories Limited

**Mobile Healthcare Vans for Infants and Expectant and Nursing Mothers**

- Ranbaxy Community Health Care Society (RCHS)* provides medical and primary healthcare services* for people living in rural areas and urban slums, particularly for infants and expectant and nursing mothers. Eighteen mobile healthcare vans equipped with basic medical equipment and one urban family welfare center have increased the opportunities for some 650,000 people in 345 villages located far from medical facilities to receive medical care in the states of Punjab, Haryana, Himachal Pradesh, Madhya Pradesh and Delhi.

- Ranbaxy works together with the Punjab State Government to provide mobile health delivery services through a public-private partnership. These mobile services deliver free, need-based quality and primary healthcare services, including diagnosis and treatment of acute chronic diseases and primary prevention and early detection of common cancers, for rural populations in Punjab.

- In fiscal 2011, three mobile healthcare vans were provided—one in Punjab under the Public Private Partnership Project and two in Madhya Pradesh under the Daiichi Sankyo-Ranbaxy joint CSR initiative.

To find out more about our initiatives to contribute to the realization of the UN Millennium Development Goals (MDGs), see pages 3-4.

**Contributions to Social Welfare Groups**

Donations given to People for Animals for the rescue and rehabilitation of sick and needy animals.

---

*1. Ranbaxy Community Health Care Society:
In 1979, Ranbaxy set up the non-profit organization, Ranbaxy Rural Development Trust. As the program grew, the Trust was re-christened as Ranbaxy Community Health Care Society (RCHS), an independent body created in 1994. The initiative is focused on mobile healthcare treatment based on an integrated approach of curative, preventive and health promotion services covering the areas of maternal health, family planning, adolescent health, and health education, including HIV/AIDS awareness.

*2. With the aim of reducing social disparities in attaining and maintaining good health, a fundamental human right, primary healthcare is about proactively offering a range of healthcare services, including preventative care and health promotion services.
Daiichi Sankyo is proactively involved in dealing with environmental issues, which are common challenges for the global community, through its social contribution activities as well as its business operations.

**Daiichi Sankyo Co., Ltd.**

**Making Donations**

We make donations to the Keidanren Nature Conservation Fund.

**Daiichi Sankyo Co., Ltd., Shinagawa R&D Center**

**Clean-up Activities**

We spend time cleaning up the area around the center during the lunch breaks in the months of June, September, October, November, December and March. A total 117 people took part during fiscal 2011.

**Daiichi Sankyo Co., Ltd., Fukuroi Research Center**

**Park Fertilization**

We help to fertilize cherry and plum trees in the ECOPA Hana no Sato park in Fukuroi City, Shizuoka Prefecture.

**Clean-up Activities**

The center staff, as well as the contractors, collect discarded litter from the area around the center. In fiscal 2011 a total of 85 staff members took part. We also help cleaning up after the Enshu Fukuroi Fireworks Festival in August.

**Daiichi Sankyo Propharma Co., Ltd., Akita Plant**

**Clean-up Activities**

In lunch breaks during June, the Environment Month, staff voluntarily clean up the streets around the plant. In fiscal 2011, 80 people took part.

**Daiichi Sankyo Propharma Co., Ltd., Onahama Plant**

**Clean-up Activities**

Every spring and fall, we get involved in the City-wide Cleanup Campaign in the city of Iwaki by cleaning up the area around the plant. In fiscal 2011, 10 people took part. We also regularly clean up the rivers, coast and parks near the plant.

**Daiichi Sankyo Propharma Co., Ltd., Tatebayashi Plant**

**Clean-up Activities**

During June, the Environment Month, we tidy up and collect litter in the park that is directly next to our offices. In fiscal 2011, 20 people took part.
Daiichi Sankyo Propharma Co., Ltd., Hiratsuka Plant

Tree-Planting Seminar
We take part together with local residents in a tree-planting seminar with the Organization to Promote a Green Environment around Factories, organized by plants and factories within the city of Hiratsuka.

Sagami River Cleaning and Planting
We are on the board of the Environmental Countermeasures Committee in Hiratsuka City, participating in surveys of the area around the Sagami River, as well as participating in cleaning and planting activities. In fiscal 2011, three people took part.

Daiichi Sankyo Propharma Co., Ltd., Odawara Plant

Clean-up Activities
We take part in annual activities organized by the Odawara City local council to clean up the Sakawa River. In fiscal 2011, 28 people took part. We also clean up the area around the plant during June, the Environment Month. In fiscal 2011, 73 people took part.

Daiichi Sankyo Propharma Co., Ltd., Takatsuki Plant

Clean-up Activities
We carry out voluntary cleaning activities on Environmental Beautification Promotion Day, organized twice a year by Takatsuki City. In fiscal 2011, a total of 129 people took part. We also take part in a clean-up of the Shinkawa River, which flows through the city.

Working Together with Communities to Create a Beautiful Environment
We belong to a group that promotes the greening of the Momozono area to the south of JR Takatsuki station, and we are involved in activities to keep the area around the plant clean. On the 20th of each month, we clean up the area outside the plant. A total of 463 people took part in fiscal 2011.

Clean-up Hiking
In August 2011, 16 people participated in a clean-up hiking event that was organized by the Takatsuki Environment Citizens Association and the city of Takatsuki.

Promoting Car-Free Day
We have designated the 20th of each month as “Car-Free Day” to reduce exhaust gas emissions and promote alternative modes of commuting to work. In fiscal 2011, 87% of the staff cooperated with this initiative, a total of 444 people.
Reuse, Recycle

We collect unwanted shopping bags from our employees and use them as garbage bags when cleaning the area around the plant. Paper cups used in the plant are made from paper produced from timber from domestic forest-thinning activities, and used paper towels are sent out as a resource for recycling.

Lights-Off and Energy-Saving Campaign

We save energy by turning off the lights that illuminate the signboards around the plant at night. We have been turning off lights since March 14, 2011 to save energy following the Great East Japan Earthquake. Between July and October we saved energy to deal with the electricity shortage in the aftermath of the earthquake by turning off air conditioning during peak hours, rethinking the use of tea dispensers and vending machines, unplugging all devices that are not in use, and turning off unnecessary electric items such as toilet seat warmers, automatic taps and hand driers. Between the period from April 2011 to March 2012 we saved a total of 16,671 kWh of energy.

Supporting Children in Developing Countries by Recycling Bottle Caps

We are working with a nonprofit organization that supports children around the world through the recycling of the caps from drink bottles in the plant. Rather than incinerating the caps, they are recycled, and the profits go towards providing polio vaccinations for children in developing countries. In fiscal 2011, we collected 30,160 caps, enough for 38 vaccinations.

Daiichi Sankyo Chemical Pharma Co., Ltd., Hiratsuka Plant

Clean-up Activities and Planting

In November 2011, in our role as a member of the board of the Environmental Countermeasures Committee in Hiratsuka, along with local primary school children, we helped clean up the area of the Sagami River bed and planted greenery.

Daiichi Sankyo Chemical Pharma Co., Ltd., Odawara Plant

Clean-up Activities

On the third Wednesday of every month, some 20 employees clean up the area around the plant. Twenty-one employees took part in the annual event to clean up the Sakawa River, organized by the local council and associations, and 15 took part in the annual cleaning of the Sekiguchi River, organized by the local council.

Daiichi Sankyo Logistics Co., Ltd.

Clean-up Activities

On the fourth Monday of every month we clean up the area around the plant. In fiscal 2011, 50 people took part.

Asubio Pharma Co., Ltd.

Light-Down Campaign

We participated in the Light-Down Campaign, an energy-conservation movement organized by the Ministry of the Environment, by turning off lights on signboards and in show windows for two days in June and July 2011.
Environmental Conservation

Daiichi Sankyo, Inc.

Park Beautification Project

We supported a beautification project of Morris County Park in northern New Jersey, in which more than 50 Daiichi Sankyo staff members planted over 120 cherry trees, and the company made a financial donation towards the beautification of the park.

Luitpold Pharmaceuticals, Inc.

Supporting Coastal Beautification

We support and donate to the Coastal Steward, a group which is returning the coastline to its natural beauty.

Daiichi Sankyo Pharmaceutical (Shanghai) Co., Ltd.

Tree Planting

We plant trees on Tree Planting Day (March 12) each year to help protect the environment.

Daiichi Sankyo (Thailand) Ltd.

Tree Planting

Daiichi Sankyo (Thailand) Ltd. staff and 100 people from the medical industry worked together to plant trees in Bangpu, Samutprakarn.

Daiichi Sankyo Brasil Farmacêutica Ltda.

Environmentally Responsible Disposal of Electronic Equipment

In partnership with a reverse logistics company, we dispose of electronic equipment appropriately and without causing damage to the environment.

Daiichi Sankyo Venezuela S.A.

Environmental Protection Calendars

We make donations to support the production of calendars by NGOs engaged in environmental protection.

Tree Planting

We plant trees on the designated Tree Planting Day in September every year.
**Youth Development**

We offer a variety of support programs to encourage the healthy development of the next generation.

Youth Development

Receiving Visitors from High Schools

In August 2011, some students from schools designated as a “Super Science High School” by Japan’s Ministry of Education, Sports, Culture, Science and Technology made an official visit to the company (six students in total from three schools).

Hosting a Research Career Seminar for Students

In August 2011 we hosted a Research Career Seminar, which included a visit to the research laboratories, for students who are interested in a research career. In fiscal 2011 a total of 42 undergraduate and post-graduate students took part.

Research Internships

In August and September 2011, we offered internships to students aspiring to be researchers. In fiscal 2011, a total of 16 graduate students participated.

Daiichi Sankyo, Inc.

Middle and High School Hands-on Science Training

We provide science education opportunities through the Students to Science (S2S) program, which offers hands-on science training to middle and high school students. In 2011, approximately 2,000 students participated in the program, and 25 staff members volunteered to act as mentors. Many of the students who participated in the program say they are now considering a career in science in the future.

Supporting Hands-on Science Education in Museums

We provide support for hands-on science activities at the Da Vinci Science Center in Pennsylvania and for interactive science exhibits and activities at the Morris Museum in New Jersey.

Luitpold Pharmaceuticals, Inc.

Internships

We participate in the St. John’s University Pharmaceutical Industry Rotation for 5th & 6th Year Pharmacy Students. This program provides practical experience for students in compounding medicine at our plant and in other aspects of the pharmaceutical industry. In fiscal 2011, 10 students took part.

Making Donations

We donate to the Cold Spring Harbor DNA Labs.

Post-Doctoral Fellowships

We support the Fellowship Program at St. John’s University. In fiscal 2011, two post-doctoral researchers received fellowships through this program.

Promotion of Culture, Art and Sport

We work closely with local communities around the world to encourage the development of culture, art and sport.

Daiichi Sankyo Co., Ltd.

National Cherry Blossom Festival Centennial Anniversary in Washington, D.C., the United States

In 1912, Japan made a gift to the United States of around 3,000 cherry trees, which were planted along the banks of the Tidal Basin in Washington, D.C. The year 2012 marks the 100th anniversary of this gift. Dr. Jokichi Takamine, who was the first president of Daiichi Sankyo, orchestrated the gift of 3,000 cherry trees on behalf of the city of Tokyo. It is due to this historical background that we joined the centennial anniversary of the Cherry Blossom Festival held in March–April 2012 as co-chair of the Centennial Celebration Host Committee and were involved in the organization and planning of the event.

Contributions to Activities to Promote Understanding of Japan and Its Culture in the United Kingdom

We make donations to the Japan Society in the United Kingdom to support programs to advance education with regard to Japan and its culture and provide teaching materials for this purpose.

Encouraging Lifesaving

We take part in the Japan National Lifesaving Championships, which are held annually in October on the Katase Nishihama Beach on the Shonan Coast with the aim of improving the techniques of lifesavers, who work tirelessly to keep other people safe in and around water.

Working with Musical Theater

We have sponsored the Shiki Theatre since 1986. In fiscal 2011, we sponsored a performance of Mamma Mia! at the theater in August and invited cancer patients and their families, 240 people in all.

Supporting Top Athletes

We employ and support backstroke swimmer Junya Koga, a top-class athlete who aims to beat the world record. We believe that this will give other employees a chance to foster their competitive spirit and contribute to the company’s growth.
### Daiichi Sankyo Co., Ltd., Kasai R&D Center

**Opening Facilities to the Public**

We open our training facilities to sports clubs that are registered with Edogawa Ward. In fiscal 2011, this offer was taken up a total of 44 times.

**Supporting Local Festivals and Events**

We provide local communities with ice, car parking facilities, and lighting for local events and festivals. In fiscal 2011, this offer was taken up a total of 11 times.

### Daiichi Sankyo Propharma Co., Ltd., Akita Plant

**Opening Facilities to the Public**

We offer facilities such as sports grounds and training rooms for use by the public. In fiscal 2011, 16 groups with a total of 1,163 people used the facilities.

**Support and Participation in Local Festivals**

We sponsor the local Akita Kanto Festival held annually in August. In fiscal 2011, a total of 54 people comprised of staff members and their families took part in the festival activities.

### Daiichi Sankyo Propharma Co., Ltd., Tatebayashi Plant

**Supporting a Local Festival**

We provided donations to the local Kawasegaki Festival held in Chiyoda Town, Gunma Prefecture.

### Daiichi Sankyo Propharma Co., Ltd., Hiratsuka Plant

**Supporting the Tanabata Festival**

We sponsor and offer financial support to the Shonan Hiratsuka Tanabata Festival.

### Daiichi Sankyo Propharma Co., Ltd., Odawara Plant

**Supporting Local Festivals**

We sponsor and offer financial support for the local summer evening festival and the festival held at Takada Hachiman Shrine.

### Daiichi Sankyo Propharma Co., Ltd., Takatsuki Plant

**Support for Local Festivals and Marathon**

We sponsor and offer financial support for local events such as the Cherry Blossom Festival, the Takatsuki Festival and the Takatsuki City International Half Marathon.

**Opening Facilities to the Public**

We offer use of our facilities to a nursing college for physical education lessons. In fiscal 2011, the facilities were used six times.

**Walk for Life**

The Annual Walkathon was organized at Toansa, Punjab, India, with active participation by employees.

**Poster-Making Competition**

A poster-making competition was organized on World Health Day. The theme was “Health and Sports.” Many children participated, and the posters were judged on content, creativity and relevance to the theme.
Regional Communication

We take every opportunity to communicate, collaborate and co-exist in harmony with local communities.

Daiichi Sankyo Co., Ltd.

Taking Part in the Sapporo Snow Festival
The 63rd Sapporo Snow Festival was held between Monday, February 6 and Sunday, February 12, 2012, and we took part in making a snow sculpture with local citizens. We built a snow sculpture displaying "125/80," the normal blood pressure range, in large figures with a slogan to promote blood-pressure measurement at home to reduce hypertension.

Daiichi Sankyo Kusuri Museum
Daiichi Sankyo Kusuri Museum was opened in February 2012 as a museum providing an interactive experience that gives a broad general audience the opportunity to learn about medicine in a fun way. This facility's cultural functions and public programs also represent a contribution to the larger Nihonbashi community.

Daiichi Sankyo Co., Ltd., Shinagawa R&D Center

Tours of the Plant and Laboratories
We give tours of the laboratories to people from public offices, universities and high schools. This activity was partially interrupted due to the effects of the Great East Japan Earthquake, but a total of 141 people were able to come for a visit in fiscal 2011.

Taking Part in Disaster Drills
Five people participated in a disaster drill organized by Shinagawa Ward, Tokyo in May 2011 for evacuation on foot in an emergency. In addition, five people took part in disaster drills organized by the local council in September 2011.

Daiichi Sankyo Co., Ltd., Kasai R&D Center

Contributing to the Historical Street-Scape Project in Edogawa Ward
As part of the Historical Street-Scape Project in Edogawa Ward, we contributed to the project by installing an Edo-era-style plaster wall along the north-facing external wall of the center, which was completed in March 2012.
Regional Communication

We take every opportunity to communicate, collaborate and co-exist in harmony with local communities.

Tours of the Plant and Laboratories
We give tours of the laboratories to students from universities and high schools. In fiscal 2011 there were 16 such visits with a total of 303 people taking part.

Providing the Grounds for Fire Drills
We offer the use of our grounds to the local fire brigade for fire training purposes. This offer was taken up on 35 occasions in fiscal 2011.

Discussions with the Local Councils
We host exchange meetings twice a year with the heads and members of the seven local councils.

Daiichi Sankyo Co., Ltd., Fukuroi Research Center

Road Safety Instruction
Every month, including the periods of the National Road Safety Campaign and the Shizuoka Prefecture Road Safety Campaign, our employees are involved in roadside road safety instruction in the area around the center. In fiscal 2011, 151 people comprised of staff members and those from contractors took part.

Daiichi Sankyo Propharma Co., Ltd., Onahama Plant

Hosting an Environmental Report Meeting
We host meetings with local residents from the three districts around the plant for the purpose of exchanging information and having discussions on environmental, safety, and disaster-prevention issues. In fiscal 2011, 17 people took part. In addition to regular reporting on our environmental performance, we explained the plant situation following the Great East Japan Earthquake.

Daiichi Sankyo Propharma Co., Ltd., Tatebayashi Plant

Road Safety
During the National Road Safety Campaign each spring, members of the staff go out into the local community during commuting hours before work to promote compliance with the speed limit and the wearing of seatbelts. Seven people carried this out in fiscal 2011.

Daiichi Sankyo Propharma Co., Ltd., Hiratsuka Plant

Tours of the Plant and Laboratories
We give tours of the laboratories to people from high schools, colleges, hospitals and local communities. In fiscal 2011, the tours were held 18 times, and a total of 378 people took part.

Communicating with Local Residents
We hold a Regional Communication Meeting to better communicate with local residents. In fiscal 2011, 30 people took part.

Providing the Grounds for Fire Drills
We offer the use of our grounds to the local fire brigade for fire training purposes. This offer was taken up on 35 occasions in fiscal 2011.

Tours of the Plant and Laboratories
We give tours of the laboratories to students from universities and high schools. In fiscal 2011 there were 16 such visits with a total of 303 people taking part.

Communicating with Local Residents
We hold a Regional Communication Meeting to better communicate with local residents. In fiscal 2011, 30 people took part.

### Daiichi Sankyo Propharma Co., Ltd., Odawara Plant

**Participating in the Firefighters’ New Year Ceremony**

The plant fire prevention team takes part in the Odawara firefighters’ New Year Ceremony held by the Odawara Fire Department to demonstrate a fire engine with chemical fire-suppression capabilities.

**Distributing Site Reports**

We distribute a report about environmental safety activities at the plant to government agencies in the local area.

**Site Report Meeting**

We hold a meeting for the local residents’ association to report on environmental safety measures at the plant.

**Disaster Drills**

In November 2011, three people took part in fire alert scramble training organized by the Odawara Fire Department. This exercise included first response fire training.

### Daiichi Sankyo Propharma Co., Ltd., Takatsuki Plant

**Tours of the Plant**

We give tours of the plant to local groups and schools. In fiscal 2011, we gave 14 tours, and a total of 255 people took part.

**Participating in the Firefighters’ New Year Ceremony**

Five members of the plant fire-fighting team attended the Takatsuki City Firefighters’ New Year Ceremony held by the Takatsuki Fire Department.

**Involvement with Local Bodies**

We take part in meetings with local bodies such as the police, fire department, and employment bureau to share information.

**Communicating with Local Residents**

We hold a Regional Communication Meeting to speak with local residents. In fiscal 2011, we had 11 people take part and explained our health and safety and environmental activities to them.

### Daiichi Sankyo Chemical Pharma Co., Ltd., Hiratsuka Plant

**Exchanges with the Local Pollution Prevention Committee**

We regularly visit the Hachiman Pollution Prevention Committee representatives to show them the results of environmental measurements taken within the plant site and to get their opinions. We also invite them to visit the plant so we can show them the environmental protection initiatives that we have put in place.

### Daiichi Sankyo Chemical Pharma Co., Ltd., Odawara Plant

**Participating in the Firefighters’ New Year Ceremony**

The plant fire prevention team takes part in the Odawara Firefighters New Year Ceremony held by the Odawara Fire Department in January every year to demonstrate a fire engine with chemical fire-suppression capabilities.
Regional Communication

Working with the Local Council
We host a summer evening festival in August every year and invite the members of the local council to come along so we can network with them. We also host a Regional Communication Meeting to invite members of the local council to the plant, where we give them a plant tour and show them some of the measures we have put in place to protect the environment.

Asubio Pharma Co., Ltd.

Giving Lectures
We gave lectures on various occasions, including CPhI Japan 2011 (July 2011), the Future of Osaka Bay Area Meeting (February 2012), and Kobe Biomedical Innovation Cluster Inauguration Memorial Seminar (March 2012).

Communicating with the Local Residents
We organize various meetings and gatherings to help facilitate communications and the exchange of views among companies and academic bodies from the Biomedical Innovation Cluster.

Tours of Company Laboratories
We were awarded with the New Office Promotion Association’s 24th Nikkei New Office Award, and as part of this program, we gave tours of our laboratories in October 2011 and January 2012 with a total of 47 people from various companies taking part.

Opening Facilities to the Public
We provide our first floor lobby for public use by the academic bodies of the Biomedical Innovation Cluster and by other local groups. In fiscal 2011, a total of 245 people made use of the facility.

Daiichi Sankyo, Inc.

Support for Employee Volunteer Commitment Program
We encourage our employees’ volunteer activities and honor their dedication to helping others by providing donations to the non-profit organizations where they volunteer their talents and their time. In fiscal 2011, 47 employees took part in this initiative.

American Heart Association’s Wear Red Day
We take part in the American Heart Association’s Wear Red Day, an event in which supporters participate in activities during Heart Disease Awareness Month, February every year, to increase understanding of heart disease within the community and to raise funds for a variety of programs sponsored by the American Heart Association.

Daiichi Sankyo Taiwan Ltd.

Support and Participation in Local Networking Events
We support and participate in the production of a magazine created by the Japanese Society, as well as the Fureai Festival and New Year’s Party organized by the Japanese Association in Taiwan and the Japanese Chamber of Commerce and Industry, Taipei.

Disaster Relief

We offer a range of support to areas around the world affected by natural disasters.

Support for the Great East Japan Earthquake Recovery

Disaster Relief Volunteer Activities
A total of 67 staff members of the Group conducted disaster relief volunteer activities in areas that suffered major damage in the Great East Japan Earthquake. They helped in removing mud from factories and houses, taking away soaked fertilizer bags piled outside, and clearing scattered fishing gear and rubble.

Donations for Relief Support
The Daiichi Sankyo Group donated a total of 190,970,049 yen to the Japanese Red Cross Society and to the Red Cross Society of other countries. This figure includes 100,000,000 yen donated by the Group, 40,988,639 yen donated by Group employees, and 49,981,410 yen in matching gifts contributed by the Group through its matching gift program.*

Providing Medical-use and OTC Pharmaceutical Products
Daiichi Sankyo coordinated with the Japan Pharmaceutical Manufacturers Association and quickly provided medical products such as hemostatic drugs, anti-inflammatory analgesic agents, hypertension drugs, and antibacterial agents. In addition, the company listed healthcare products, including OTC drugs,* and provided them for free through the Japan Self-Medication Industry.

Production and Distribution of a Health Information Booklet
Daiichi Sankyo donated a total of 10,000,000 yen raised through donations by staff members and contributions from the company to the Mori no Miyako Committee on Occupational Health to fund production and distribution of a health information booklet designed for earthquake evacuees living in temporary housing. A total of 36 Group company staff volunteered to support the distribution of this booklet. With the assistance of volunteers from the Silver Human Resource Centers in Miyagi Prefecture and Kahoku Shinpo News Company, as well as the Group’s volunteers, a total of 87,000 copies were distributed to families living in temporary housing.

Daiichi Sankyo Presents Family Ties Theater 2012
In March 2012, the company invited 903 people affected by the earthquake to attend the “Daiichi Sankyo Presents Family Ties Theater 2012” (Shiki Theatre Company musical, “Yuta and the Enchanted Friends”). A total of 50 group company employees volunteered, helping with preparations and organization on the day of the musical.

Disaster Relief Volunteer Activities

Contributions to Disaster Relief
The Daiichi Sankyo Group donated money to help with relief for flood victims in Thailand.

*D1. A program that provides company funds that match the amount of funds contributed by the employees.
*D2. Over-the-counter (OTC) drugs: pharmaceutical products that can be purchased without a prescription from a doctor.

**Daiichi Sankyo France S.A.S.**

**Support for Disaster Relief Services**

We give donations to “Tulipe,” a French organization that supports people who live in crisis zones or who are victims of natural disasters.

---

**Daiichi Sankyo Italia S.p.A.**

**Support for People Affected by the Earthquake**

We supported a memorial for the Great East Japan Earthquake organized by Associazione ARTES, Tuscan Association for Research and Studies. Funds were raised to provide scholarships for three Japanese students from the afflicted area to study in Italy, and a scholarship for one of the three students was provided by Daiichi Sankyo Italy.

---

**Daiichi Sankyo İLAÇ Ticaret Ltd. Şti**

**Contributions to Disaster Relief**

We made donations to “Save the Children” and designed T-shirts with the help of some of our employees. We donated them to the Turkish-Japanese community, who sold them in their shops to raise money for Japanese children who had been affected by the Great East Japan Earthquake. The company also joined with employees in making donations to help the victims of the earthquake in Turkey.

---

**Daiichi Sankyo Taiwan Ltd.**

**Support for People Affected by the Earthquake**

We invited the 30 members of the junior rugby team, the Kamaishi Seawaves RFC Junior, from Kamaishi in Iwate Prefecture, a city affected by the Great East Japan Earthquake, to visit Taiwan in support of a project to offer rugby training and friendly matches.

---

**Daiichi Sankyo (Thailand) Ltd.**

**Contributions to Disaster Relief**

The firm has donated money through the Thai Red Cross Society to help with relief for flood victims in central Thailand.

---

**Daiichi Sankyo Brasil Farmacêutica Ltda.**

**Contributions to Disaster Relief**

We donated to the Brazilian Red Cross, the Brazilian Society of Japanese Culture and Social Welfare, the Federation of Associations of Japanese Provinces in Brazil and the Japanese-Brazilian Charity Chamber of Sao Paulo to help the victims of disasters in Brazil and Japan.

---

**Ranbaxy Laboratories Limited**

**Contributions to Disaster Relief**

In the U.S., antibiotics were donated by Ranbaxy USA through the Red Cross for victims of floods and landslides in Rio de Janeiro, Brazil. In India, we provided support for a relief and rehabilitation program in the Leh region, which was hit by torrential rains causing flash floods and mudslides.
