

Daiichi Sankyo Group Position on Social Contribution Initiatives

Introduction:

Daiichi Sankyo Group's Purpose is to contribute to the enrichment of quality of life around the world. Daiichi Sankyo Group Corporate Conduct Charter further states that we are actively involved in community activities and contribute to the development of the communities as a good corporate citizen. As a trusted partner to society, we are committed to advancing a sustainable society through the promotion of social contribution initiatives. This Position Statement sets out our core principles for social contribution initiatives and the priority areas we focus on, as described below.

Basic Principles and Priority Areas:

- As a responsible corporate citizen, we proactively and voluntarily promote social contribution initiatives.
- We believe that our business operations themselves directly contribute to society.
- We help create a sustainable society by engaging in initiatives that contribute to society.
- We focus our social contribution activities on the advancement of medical and pharmaceutical sciences, social welfare, nurturing the next generation, environmental conservation, and disaster relief and recovery.
- We foster healthy social development by participating in and supporting volunteer activities.
- We engage with communities and strive for shared prosperity.
